Determination of Patent Term Adjustment under 35 U.S.C. 154 (b)
(application filed on or after May 29, 2000)

The patent term adjustment to date is 0 days. If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the term adjustment will be 0 days.

If a continued prosecution application (CPA) was filed in the above-identified application, the filing date that determines patent term adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system. (<http://pair.uspto.gov>)

Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

REASONS FOR ALLOWANCE

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on *November 6, 2002* has been entered.

2. This Office Action is also in response to applicant's preliminary amendment filed on November 6, 2002, which has been entered as paper number 8.

3. The applicant has requested a *3 months suspension* of action on *November 6, 2002*, with the filing of Request for Continue Examination on November 6, 2002. Such requested is acknowledged and the applicant is respectfully noted that the period for suspension of action *expired on February 6, 2003*.

Reasons For Allowance

4. The following is an examiner's statement of reasons for allowance: of the prior art references considered, none has disclosed a stereoscopic image display method that is comprised of the step of guiding image light from an image display element by a *second* optical system, placed in front of the display element, to a *mask* member having a mask pattern, and the step of converging the image light passes through the mask member by a *first* optical system to an observation surface. The second optical system has predetermined periodic structure in each of horizontal and vertical directions in the order from the light incident side, wherein the second optical system comprises a plurality of elementary optical elements forming one period in the horizontal and vertical directions and has optical action in the

Art Unit: 2872

horizontal and vertical directions that are different from each other. In a different arrangement, the second optical system is an elementary optical element forming one period in the horizontal and vertical directions has different optical functions in the vertical and horizontal direction. This arrangement has the advantage of providing a stereoscopic image display method that is free from scattering in the image display element and from the diffraction in the pixel structure.

The European Patent Applications EP 977445 A2, and EP 1045596 A2, each teaches a stereoscopic display system having a mask and a second optical system having periodic optical elements formed in vertical and horizontal directions and having different optical actions in the vertical and horizontal directions. But these applications do not teach a first optical system for directing light from the mask to the display, do not teach the second optical system is placed in front of the display and do not teach the arrangement of the second optical system/mask/first optical system as disclosed in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
